About

Join us at **EIC Connect Italy 2026**, beginning with an exclusive evening networking reception on Monday, 8 June in Milan, followed by the main conference on Tuesday, 9 June 2026 at Palazzo delle Stelline.

This flagship conference, hosted by the Energy Industries Council (EIC), will bring together operators, developers, EPC contractors, suppliers, and government representatives to explore the projects and partnerships shaping Italy's and Europe's energy future.

As Italy strengthens its position as a key energy hub in the Mediterranean, connecting regional resources with European demand, **EIC Connect Italy** offers a unique platform to engage with decision-makers, gain insight into live and upcoming projects, and identify new routes to market. From power infrastructure and renewables to hydrogen, oil & gas, industrial decarbonisation, and nuclear, the opportunities across the Italian and wider European energy landscape are significant.

Join us in Milan to connect, collaborate, and play a part in driving forward Europe's energy transition.
