# ABOUT THE SUMMIT

**ENERGY 360°  
SUMMIT**

**UK & EUROPE**

6-7 | MAY **2026**

Energy 360 Summit 2026 is a bold new evolution of EIC's renowned North Sea Decarbonisation Conferences - reimaged as a high-level, two-day event hosted by the EIC in collaboration with leading international partners. This flagship summit will bring together industry leaders, policymakers, infrastructure developers, and supply chain innovators to address the critical challenges – and seize the transformative opportunities - shaping the future of energy across the UK and Europe. Set against a backdrop of accelerating decarbonisation and geopolitical shifts, the summit will explore the full energy value chain: production, transportation, storage, and end use.

Key topics will include:

- Navigating evolving policy frameworks and meeting sustainability targets
- Securing critical infrastructure and strengthening supply chain resilience
- Scaling up Offshore Wind, Hydrogen, CCUS, and Grid Connectivity
- Sector spotlights: project opportunities in Geothermal, Nuclear, SAF, Onshore Renewables, and Wave & Tidal
