

# Leading the World in Cooling Technology

## Evaporative & Dry Cooling

John Cockerill Hamon is the world's leading manufacturer of custom-designed evaporative & dry cooling technology products, reinforced by over **120 years** of R&D and experience in industries such as:

- Power
- Oil & Gas
- Chemicals
- Steel mills
- Pulp & Paper
- Petro-Chemical
- Waste to Energy
- Data Centres

Designing tailor-made solutions for each client.

## Our Expertise

- Supply a wide range of wet and dry cooling assets across many sizes, scales, and processes.
- The largest natural draft cooling towers in the world, to package cooling towers.
- Air-Cooled Condensers from 5 to 1100 MW.
- We offer a full portfolio of Cooling Towers, any type or size with or without plume abatement.
- Offer pre-built lift-in solutions to minimize installation time for time-critical projects.
- Deliver customised cooling equipment to meet your operational needs.

## Services for All Brands

With an integrated view of the project, the service forms part of our portfolio regardless of the original O&M:

- Inspections and preventive maintenance
- Performance evaluations
- Structural, vibration and CFD analyses
- Refurbishment and upgrades
- Original spare parts
