

UK PAVILION

CONNECT BORNEO

2 - 3 February 2027 | Borneo Convention Centre Kuching

EVENT DETAILS

Join the UK Pavilion at Connect Borneo 2027 to secure a prime stand location, enhanced promotion and visibility as well as access to industry experts through our extensive networking opportunities.

EIC CONNECT is the EIC's flagship meet-the-buyer event organised around the world each year providing attendees with a diverse range of functions (Panel / Solo-themed Conference, 1-to-1 Business Matching, Networking Reception) dedicated to fostering and nurturing business partnerships and expanding their customer base.

The objective of the conference is to engage, discuss and identify business opportunities within the energy market in Sabah, Sarawak, Brunei and Indonesia and promote cross-border partnerships to accelerate the energy transition landscape in the Borneo region.

Join us and be a part of the experience!

MARKET INTELLIGENCE

2-3 Feb • Kuching, Malaysia
EIC CONNECT BORNEO

Borneo has emerged as one of important energy hub in Southeast underpinned by its abundant natural resources and strategic location. Its strategic location and dynamic energy landscape positions Borneo as a key driver of regional energy projects development while continuing to attract strong interest from global investors.

Borneo remains an important established oil and gas location, with Sabah and Sarawak collectively accounting for approximately 78% of Malaysia's natural gas production, Brunei hosting one of the world's largest LNG facilities and Kalimantan continues to play as a key area for Indonesia's upstream development. The region hosts several major projects including the Lang Lebah gas field in Sarawak and the Kutei North Hub in East Kalimantan.

Renewables are also gaining momentum across Borneo providing a foundation for the island's energy transition effort. The region continues to advance solar power development, while Sarawak is progressing with its hydropower ambitions as part of the island's renewable energy mix. In addition to supporting domestic electricity demand, Borneo is also well positioned to become a regional electricity supplier through cross-border power trade and greater integration with the ASEAN Power Grid. Realising this potential will require continued investment in grid connectivity and transmission infrastructure to accommodate the growing share of renewable energy generation.

Beyond mature renewables, Borneo is also exploring opportunities in emerging clean energy developments, including hydrogen, carbon capture and storage (CCS) and biofuels. Sarawak, for instance, is positioning itself as a potential regional hydrogen hub, with several projects planned in the state. Malaysia's broader CCS ambitions could also create opportunities by leveraging Borneo's geological storage potential and existing offshore expertise. While many of these developments remain at an early stage, growing government support and strategic partnerships could help establish new clean energy industries across the island.

Across Borneo, EICDataStream tracks more than 148 projects across all sectors with an estimated total CAPEX of US$94.8 billion up to 2032. The oil and gas sector accounts for the largest share of the project pipeline, representing 64% of total projected CAPEX. Meanwhile, mature renewables and energy transition projects account for 30% of the pipeline, highlighting the region's growing interest in diversifying towards cleaner energy sources. Notably, Borneo's established expertise in the oil and gas industry has also played an important role in supporting its broader energy diversification efforts.

BENEFITS

OF PARTICIPATING ON THE UK PAVILION

- PRIME LOCATION
- HIGH VISIBILITY PRESENCE
- ENHANCED PROMOTION
- ACCESS TO INDUSTRY EXPERTS
- CATERED UK GROUP LOUNGE
- VIP VISITORS & PAVILION TOURS (SUBJECT TO AVAILABILITY)
- DEDICATED PROJECT MANAGER
- APPOINTED EIC FREIGHT PARTNER & STAND DESIGNER
- ONSITE UK NETWORKING RECEPTION
- HELP TO IDENTIFY POTENTIAL PARTNERS & CUSTOMER
- COMPANY ENTRY IN THE UK GROUP CAPABILITIES BROCHURE

YOUR STAND

- Back & side hard walls (graphics optional extra)
- Fascia name board
- 1 power outlet
- 1 round table & 3 chairs
- 1 lockable reception counter
- Literature rack
- Wastepaper basket

*Image for display purposes only

**Please note that any stand enhancements such as wall graphics, AV, additional sockets etc will need to be ordered and charged separately with EIC's appointed stand builder or the third-party contractor of your choice.

COSTS

(EXCLUDING VAT)
