About

Join us at EIC Connect Germany 2026, beginning with an evening networking reception on Monday, 30 November, followed by the main conference on Tuesday, 1 December, at the British Embassy in Berlin.

Hosted by the Energy Industries Council (EIC), this flagship event will bring together government representatives, operators, developers, EPC contractors, technology providers and suppliers to explore the projects, investment priorities and partnerships shaping Germany's energy future.

As Germany moves from ambition to delivery, major opportunities are emerging across grid expansion, battery storage, hydrogen infrastructure, renewable energy, cross-border connectivity, industrial decarbonisation and data-centre power demand.

EIC Connect Germany 2026 will provide direct access to decision-makers, market intelligence, project updates and new routes to market, alongside dedicated networking, exhibition opportunities and one-to-one meetings.

Join us in Berlin to connect, collaborate and help deliver the next chapter of Germany's energy transition.
