

Ready for a new energy?

kentplc.com

the energy within

A powerful purpose.

**Courageously tackling the
greatest challenge of our time,
to bring our world the energy it
needs in the most responsible
way ever imagined.**

Helping us to define why we do what we do in a new way. Giving us a lens
clearer than ever before to stride forwards through.

Expect us to take every step to boldly follow this path. We will measure every
action, every investment and business decision against this.

The global leader in integrated energy services across the asset lifecycle

Every game-changing project starts with an idea. Kent Consulting brings that idea to life.

Consulting

A blend of practicality and innovation from initial concept and development to optimisation and maintenance.

Advisory and technical consulting

Project development/master planning

Conceptual and feasibility studies

Pre-FEED and FEED

Digital consultancy and engineering

Process and facilities engineering

Structural engineering

Naval architect and hydrodynamics

Process and technical safety

Asset integrity management

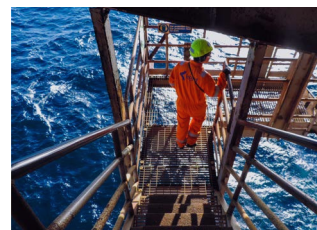

Human factors and environmental engineering

Digital twins

Subsea and Pipelines

From independent consultancy advice or integrated services, we are with you every step of the way.

Global Projects and Operations Framework Agreement, Global

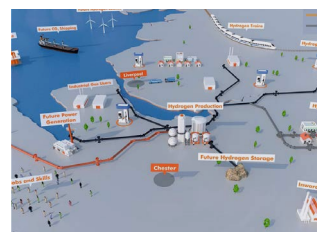

Operator bp

Duration Ongoing since 2020

Scope Engineering and consultancy support services for onshore and offshore assets

HyNet Hydrogen Production Plant 1

Operator Vertex

Duration Ongoing since 2019

Scope Concept and Technology Selection, Pre-FEED, Site Selection and FEED, and Technical Advisory Services

Berwick Bank Wind Farm, UK

Operator SSE Renewables

Duration Ongoing since 2022

Scope Concept, FEED and Detailed Design for substation platforms

We know the power of efficient operations and deliver the difference you need.

Engineering & Projects

At Kent, we bring three qualities to every project: the scale of our offer, the reach of our global engineering hubs and the in-depth capability of our teams.

PMC	Engineering and procurement
EPCm	Construction management
EPC	Construction services

Our world-class expertise is why we have been trusted to deliver some of the world's largest energy assets.

Baytown Sustaining Capital Alliance, USA

Operator	ExxonMobil
Duration	Ongoing since 1966
Scope	Front-end development, project management, engineering, procurement and construction services

Framework Agreement for PMC Services for Onshore Major Projects, UAE

Operator	ADNOC
Duration	Ongoing since 2018
Scope	Project Management Consultancy (PMC) Services, FEED and engineering services, technical assistance

Fawley FAST Project Alliance, UK

Operator	ExxonMobil
Duration	Ongoing since 2022
Scope	Construction, completion and commissioning

Transition projects safer, faster and smarter.

Completions, Commissioning & Start-up

We simplify systems, plan your project with an end in mind approach and focus on high quality, reduced cost and timely delivery. Always.

Early Commissioning FEED planning

Systems completions planning and execution

Pre-commissioning

Commissioning and start-up

Intervention and inspection services

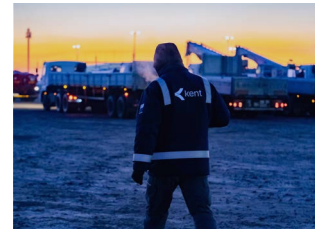

Technician competency, verification and training programs

Commissioning readiness reviews

Operations readiness, training and assurance

There's a reason why Kent is the specialist commissioning service provider of choice.

Future Growth Project Systems Completion, Tengiz, Kazakhstan

Operator	TCO (TengizChevroil)
Duration	Ongoing since 2019
Scope	Gathering & 3GI Multi-disciplinary completions and commissioning

AST2 Phase 2 & 3 Commissioning, Canada

Operator	Nova Chemicals
Duration	Ongoing since 2021
Scope	Commissioning and management oversight of mechanical completions

Gulf Coast Growth Ventures Project, USA/China/Japan/Taiwan/Italy

Operator	ExxonMobil & SABIC JV
Duration	2018-2022
Scope	Integrated commissioning and start-up services from China fab yard to project site

Tailor-made solutions for specific maintenance needs.

Operations & Maintenance

Our comprehensive suite of maintenance services includes everything from preventative and predictive maintenance to shutdowns and turnarounds and asset management.

Operations and maintenance

Turnaround and shutdowns

Brownfield modifications

Preservation services

Process and production optimisation

Maintaining your assets as efficiently and cost effectively as possible to ensure that your energy assets can operate at peak efficiency.

QGC Operations & Maintenance Workforce, Australia

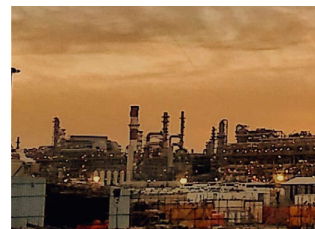

Operator	QGC Pty Limited
Duration	Ongoing since 2019
Scope	Operations and maintenance manpower supply

Structural Integrity Management Services, Australia

Operator	Woodside
Duration	Ongoing since 2021
Scope	Structural integrity management, RBI, and other consultancy services for offshore and onshore assets

Qatar Shell GTL E&I and HVAC Maintenance

Operator	Qatar Shell
Duration	Ongoing since 2013
Scope	Multi-disciplinary maintenance & engineering support services

The power to drive the energy transition forward, and strengthen energy security.

Actions, not just words

At Kent, we don't simply evaluate what needs to be done. We build the plan and get to work. Because you – and the fast-changing energy market – won't wait. And neither will the planet.

We are investing in skills, transitioning our people, and creating capacity for faster change.

We're not planning for the future. We're shaping it.

We believe that the best way to reduce environmental impact is to deliver practical solutions. The kind that can be implemented safely, proficiently, and innovatively.

That's why we build low-carbon solutions into every strategy. By maximising energy efficiency through design, we are able to de-carbonise without relying on costly engineering effort. This may involve finding sources of clean energy, devising plans for sustainable waste disposal, or utilising state-of-the-art technology for carbon capture.

Every sustainability strategy needs to be future-proof. So we never stop finding ways to work with the rest of the industry in the move to net zero.

Work with industry-leading experts to define your strategy for securely navigating the energy transition.

We have specialist teams in: →

Offshore Wind

Health & Safety

The welfare of our people who work with us globally is a fundamental core value, it is our strongest belief that we will end every day at Zero. Zero harm to our people, planet, and assets. This includes both physical and psychological harm. It is critical to that aim that we establish environments where risk is understood and controlled. Where people feel safe to raise concerns and empowered to stop work if they feel it is not safe, without fear of retribution or negative connotations.

At Kent we believe positive outcomes are a result of a great culture and effective leadership where everyone owns the responsibility to be a custodian of safe outcomes.

The power of a global, local team

Here where you need us

Our large global network of experts work as one team. We are innovative, yet practical. Thorough, yet efficient. And by combining our technical excellence at scale with our differentiated digital tools, we consistently deliver the smartest solutions. Wherever you are in the world.

Whilst global - our local presence and knowledge assures locally deliverable solutions are developed.

Everyone on the Kent team is committed to helping our clients face the future of energy – in a way that's innovative, practical, and drives value.

Wherever you need our support.

Stay ahead of change. And on top of what's needed today.

- 
- ⌘ How will your processes and people transform to face the challenges of tomorrow?
 - ⌘ And how will you stay focused on delivering profits today?
 - ⌘ These are the questions we ask – and answer – every day. How? With clarity. Certainty. And a clear plan for success.

Every business in our industry needs a strategy for facing the future of energy. Build yours with a dependable, experienced partner at your side.

Get in touch.

We're looking forward to hearing from you. To find out more about our solutions, capabilities and the exciting new energy at Kent, visit **[Kentplc.com](https://kentplc.com)**
