THE HOME OF CYLINDERS

CYLINDERS, APPLICATIONS, SERVICES

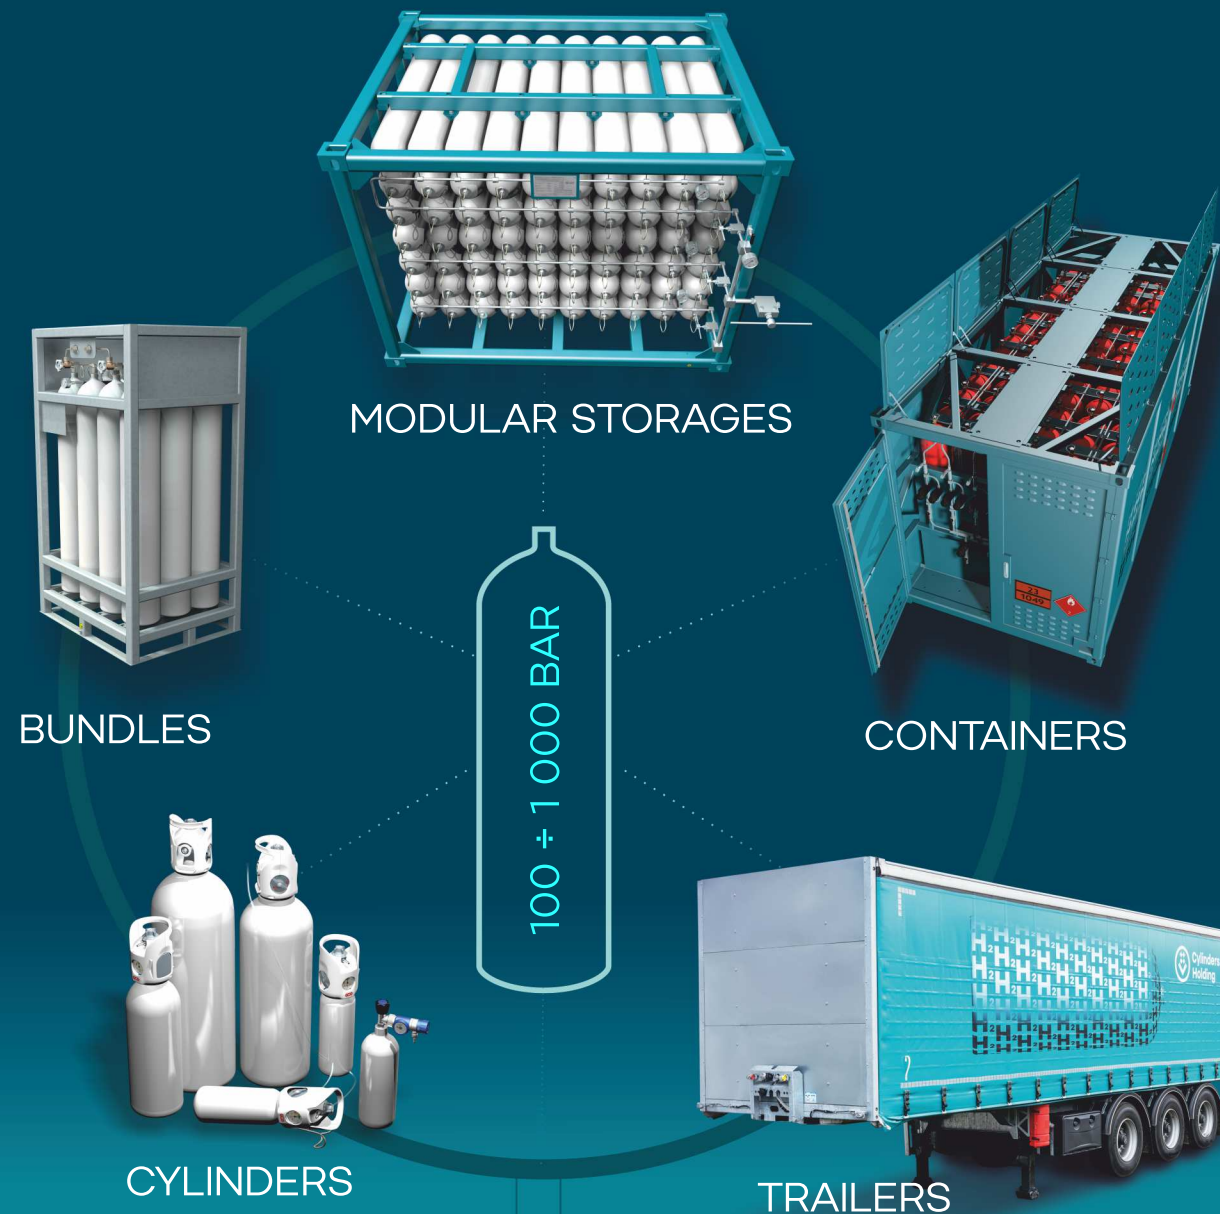

CONTROL, TRANSPORT AND STORAGE OF H₂

Unique software for controlling, optimizing storage and transport of hydrogen including remote control and supervision.

RENTAL

Rental of products for storage and transport of compressed gases. Including complex services, regular, inspection and insurance.

**Cylinders
Holding**

INSPECTIONS

We perform pressure vessel inspections including acoustic emission technology - without the need of cylinders removal from bundles or containers.

ECO-FRIENDLY DISPOSAL

We offer environmentally friendly disposal of steel pressure cylinders. Including acetylene cylinders.

CYLINDER CLEANING

We offer cylinder maintenance, to ensure cylinders are cleaned to meet the purity standards.
