WHO IS FULKRUM?

Your partner for class-leading inspection, expediting, auditing, integrity management, and staff augmentation services

Fulkrum has been providing Inspection, Asset Integrity Management, Expediting, Technical Staffing, and Specialist QA/QC Personnel to the energy industry since 2011.

With offices in the UK (London, Corby, and Aberdeen), USA (Houston), Malaysia (Kuala Lumpur), KSA (Al Khobar), UAE (Abu Dhabi), Brazil (Rio de Janeiro), Mozambique (Maputo), Guyana (Georgetown), Italy (Milan), India (Mumbai), Singapore, China (Shanghai), Japan (Tokyo), Qatar (Lusail), Iraq (Basra), Namibia (Windhoek), Colombia (Bogotá D.C), Suriname (Paramaribo) and Australia (Perth), Fulkrum's global footprint enables clients to receive around-the-clock coverage across all major continents, with technical personnel deployed in 66 countries.

Our Values

Fulkrum's guiding principles originate at the highest level of the organisation and are central to every interaction with employees, clients, and suppliers.

Our commitment to these principles, along with the active promotion of Corporate Social and Environmental Responsibility, underpins our sustained success, continued growth, and the exceptional satisfaction of our valued clients and staff

Our certified assessors deliver consistent, independent evaluations, giving you a clear understanding of vendor capabilities without needing an internal supplier quality team.

Commitment

OUR VALUES

Integrity

Quality

OUR TECHNICAL STAFFING SERVICES

Inspection, expediting, auditing, asset integrity management, and technical staffing services.

Supplier Inspection Services

Vendor Inspection, also known as Supplier Quality, Vendor Surveillance, Source Inspection, or Third-Party Inspection (TPI), enables early detection of quality issues, minimising potential safety, budget, and schedule risks caused by substandard work.

Fulkrum gives clients confidence that purchased equipment meets the correct specifications, helping to determine whether products comply with all relevant standards, whether regulatory, end-user mandated, or voluntary. Fulkrum's ISO/IEC 17020 accreditation assures clients that all inspection activities are performed by an independent, competent, and impartial organisation, providing confidence in the reliability, consistency, and global acceptance of inspection results.

Fulkrum ensures strict adherence during the manufacturing and fabrication of all types of products, providing global coverage of facilities and guaranteeing objective, evidence-based results. We help clients fulfil their contractual obligations with confidence.

Inspection Disciplines

Commodity Specialists (Valves, Umbilical, Manifolds, etc.)	E&I Inspectors (ATEX / COMPEX)
Welding Inspectors (CSWIP/CWI/AWS/EWE)	AUT Auditors

Supplier Assessment Services

Fulkrum's supplier assessments combine deep industry expertise with proprietary IRIS vendor data and performance analytics, helping reduce costs, improve quality, and drive continuous improvement across the global supply chain.

Each audit is tailored to the client and project, typically focusing on vendor systems, processes, working practices, capacity, and operational capabilities. Pre-award assessments and compliance verifications are conducted in line with international standards such as ISO 9001:2015.

Our certified assessors deliver consistent, independent evaluations, giving you a clear understanding of vendor capabilities without the overhead of an internal audit team.

Asset Integrity Management

With almost 16 years of proven experience operating in the inspection field and a strong history of serving clients across the region, here at Fulkrum, we take pride in delivering comprehensive asset integrity solutions that optimise performance, ensure compliance, and safeguard operational excellence.

As global infrastructures matures and regulatory requirements become increasingly stringent, we believe in a fresh, collaborative Partnership Approach to Integrity that puts your unique challenges and priorities at the centre of everything we do.

Our Core Asset Integrity Management Specialisations:

- Risk-Based Inspection (RBI)
- Integrity Review Audits
- Reliability Centred Maintenance
- Pipeline Integrity Management System
- Structural Integrity Management System
- Fitness for Service (FFS): Level I, II, III
- Root Cause Failure Analysis
- Corrosion Management Plan
- Corrosion Risk Assessment
- Design Review
- CMMS Services

On-site Inspection Services

Fulkrum delivers trusted QA/QC support across all phases of onshore and offshore projects, from construction and commissioning to in-service operations. Our inspection teams add value where it matters most.

Whether you need project-based teams or embedded personnel, Fulkrum provides experienced professionals to support construction, commissioning, turnarounds, shutdowns, and API in-service inspections.

With over 15 years of staff augmentation expertise, we assist clients from installation through to inspection result evaluation, corrosion analysis, and equipment fitness for service. Our teams also conduct visual inspections and facilitate turnarounds when repairs are required. To help mitigate supplier risk, Fulkrum offers technical auditing and assessment services, giving you confidence in every decision.

Expediting

Large-scale projects rely on complex global supply chains, where a single delay can impact timelines and budgets. Fulkrum's desk and field expediting services ensure critical documents, goods, and equipment are delivered on time and to specification.

With proven local expeditors across key regions, we bring deep knowledge of procurement, production, and delivery schedules. Expediting is a real-time task, and our teams respond decisively, identifying risks early and working closely with suppliers to keep production on track.

Fulkrum doesn't just monitor progress; we actively drive it.

Technical Staffing Services

Fulkrum is more than a staffing partner; we're a proactive connector between the world's top technical talent and the most ambitious energy, engineering, and construction projects. Our approach goes beyond filling open roles; we anticipate demand, build specialised talent pipelines, and deliver the right expertise at the right time.

With a proven track record of sourcing highly qualified personnel, Fulkrum delivers flexible and scalable teams that adapt to evolving project requirements. This proactive model gives clients immediate access to skilled manpower and the assurance that critical roles will be filled without disruption.

Our Services

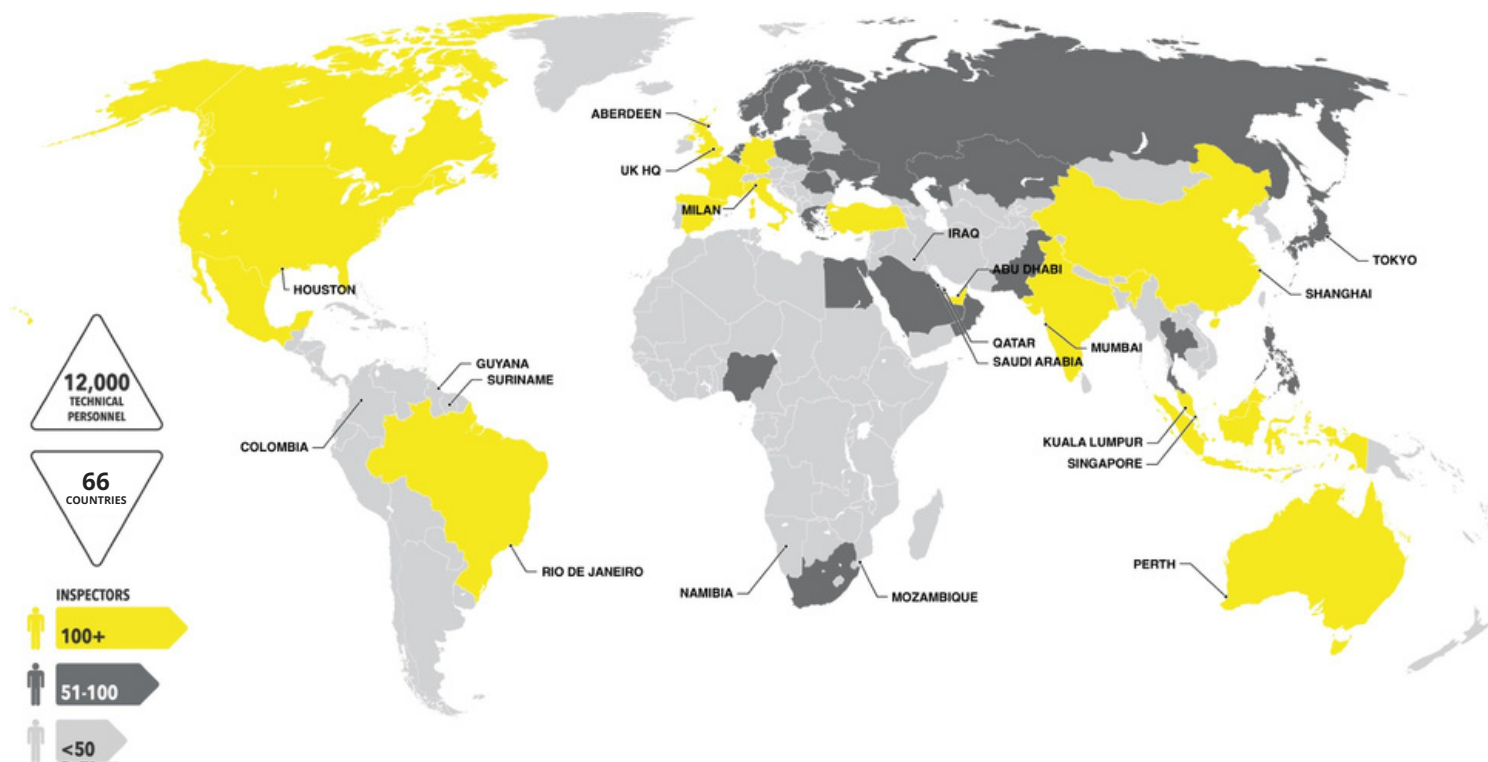

- Direct Hire Recruitment – Securing permanent professionals who drive long-term success.
- Contingent & Contract Staffing – Providing flexible, on-demand technical experts for peak workloads.
- Project-Based Teams – Deploying specialised, ready-to-go teams aligned with your project scope.
- Benchmarking & Talent Insights – Delivering workforce data and market intelligence to optimise hiring strategies and costs.
- Local Content & Compliance – Leveraging our global presence and in-country expertise to ensure regulatory alignment and maximise local participation.
