We support a wide variety of industries

UTILITIES

RelyOn supports the energy transition in the utilities sector by offering expert electrical consulting, training, and compliance services across renewable and thermal generation, transmission, and distribution networks, ensuring safe and efficient operations.

RENEWABLES

RelyOn provides tailored training and safety solutions to the renewables sector to empower their workforces to meet industry challenges with confidence, driving sustainable success in a dynamic environment. RelyOn is the world's largest provider of Global Wind Organisation accredited training.

OIL & GAS

At RelyOn, we provide specialized training, compliance support, and innovative solutions to help oil and gas companies navigate the complexities of this dynamic sector and ensure their workforce is prepared for any challenge. With more than 40 training centres across 23 countries, we can provide training and consultancy services globally.

MARITIME

The maritime industry operates globally across diverse and hazardous environments, requiring crew members to rely on their training and competence to manage emergencies far from help. With over 30 years of experience, RelyOn provides safety training and consultancy, utilizing state-of-the-art facilities and digital technology to ensure that maritime teams are prepared to protect personnel, assets, and the environment.

PUBLIC & DEFENSE

RelyOn offers a diverse range of training for the public and defense sector. This sector employs a diverse group of workers, from academics working in safe office spaces, to workers on the frontline saving lives and protecting the environment daily. Frontline workers include but are not limited to local and municipal fire brigades, the armed forces as well as the healthcare staff that on a daily basis ensure that people are secure, safe and healthy.

OTHER

At RelyOn, we cater to the world's leading industrial sectors. Construction, engineering, manufacturing, aerospace, rail, aviation, and defense are a few examples of the industries we work with and train daily.

At RelyOn, we believe that true excellence is built through continuous learning, innovation and workforce development. Our Centers of Excellence, our RelyOn Academies, are at the heart of this mission.

RelyOn
Leadership Academy

CAVU International, the RelyOn Leadership Academy's mission is to develop transformational leadership that permanently improves the safety, efficiency, and resilience of the world's most critical organizations. We want to bridge the gaps between effective management, actionable training, and enduring implementation.

RelyOn
Electrical Academy

Supporting the global trends in energy transition, electrification and digitization. Our Electrical Academy is a Centre of Excellence to foster electrical skills, safety, and compliance via training, electrical consultancy and inspection services.

RelyOn
Fire Academy

Specializing in delivering advanced fire safety training and consultancy services tailored to industrial and municipal fire brigades, RelyOn's unique blend of hands-on training, operational support, and safety management systems ensures that our clients' teams are always prepared for any emergency.

RelyOn
Maritime Academy

In today's fast-moving maritime and offshore landscape, vessels are more advanced, traffic is more crowded, and the operational stakes have never been higher. With our hybrid learning ecosystem we prepare maritime professionals to excel today, and lead with confidence tomorrow.

RelyOn
PetroSkills Academy

By providing the right knowledge and skills exactly when, where, and how our customers need them, the Petroskills alliance develops competent, performance-ready professionals for the energy industry. Our expert instructors and coaches combine practical industry experience with deep theoretical understanding, supporting learners from foundational principles through advanced application.

RelyOn

Our Applications

Utilizing best-in-class technology, we provide tailored solutions that ensure safety and reliability. Our comprehensive suite includes:

THE BUSINESS PORTAL

A powerful self-service portal for training managers, streamlining the management of training allowing them to easily assign courses, monitor learner progress, and access certifications in a single, cohesive platform, significantly improving operational efficiency.

On the other hand, the app allows course takers to view their training records and certifications in one place, sort and filter bookings.

RIDER

A modular software system focused on managing people, processes, and assets across sectors where safety matters. Rider is an employee performance management application that combines learning, compliance, and competence solutions in a scalable digital platform.

WORKSAFE®

WorkSafe is a comprehensive digital Control of Work solution, purpose-built to streamline the creation, tracking, and approval of Risk Assessments, Permits, and Energy Isolations for organizations operating in high-risk industries.

Digital Solutions

ADAPTIVE E-LEARNING

The term adaptive learning refers to a technology capable of evaluating the student's skills, knowledge, and confidence levels as it constantly assesses how the student responds to the material, which, in the end, will enable students to achieve the desired goals faster and more efficiently.

RelyOn develops an extensive portfolio of in-house courses, delivering safety, emergency response, and crisis management training for safety-critical industries, while also providing bespoke digital learning solutions, all supported by leading technologies such as **Area9's** Adaptive Learning. This includes a catalog of **1500+ digital courses**, a growing adaptive learning library in multiple languages, and services that can be combined with classroom and on-site delivery as part of a **blended learning** approach.

SIMULATION

RelyOn's state-of-the-art simulators address unique challenges, providing operators with realistic training scenarios that replicate the complex and often harsh conditions of on- and offshore environments.

Across RelyOn, we provide full-size and portable drilling and lifting simulators with 3D visualization, high-fidelity process and console operator training simulators, and full-mission maritime simulations.

Our Academies combined with RelyOn's technical capabilities provide real-world solutions for our clients

TRAINING

Our training solutions are designed with the principle of providing **realistic and fully immersive training experiences**. Delivered by experienced instructors and subject matter experts, our programs combine global consistency with local flexibility across 50+ training centers, supported by specialized facilities and globally recognized certifications. And with **blended learning** courses, we allow participants to learn the theoretical curriculum at their own pace before practical on-site training, reducing time and expenses associated with travel and accommodation.

TRAINING MANAGEMENT SERVICES

RelyOn's Training Management Services (TMS) take the complexity out of workforce training, ensuring your people stay certified, compliant, and ready to perform.

- 1 Full Compliance**
Ensure every employee meets regulatory and industry standards, with complete visibility of certifications and renewals.
- 2 Reduced Training Spend**
Optimize budgets by eliminating duplicate bookings, improving utilization, and centralizing procurement.
- 3 Simple Financial Admin**
Streamline billing and reporting with consolidated invoicing and clear cost tracking.

Consulting Services

Led by subject matter experts with decades of relevant experience, our consultancy team analyze, assess, strategize and support our customers with safety critical operations and ultimately help to create a safety culture that reduces operational costs and deliver a competent and efficient workforce. This includes:

COMPETENCY

Industry-proven processes and methodologies to govern competency management across a wide range of operational disciplines. Leveraging our team of project managers and adult learning specialists and discipline subject matter experts, we provide tailored consulting solutions to competency management that consistently measure up against industry-leading standards.

INSPECTIONS

We offer specialized advisory and support services to companies operating in safety-critical industries to ensure that equipment, processes, and operations meet stringent safety and compliance standards.

HSE & HSEQ

RelyOn provides strategic guidance and tailored solutions to enhance operational safety, efficiency, and compliance of your organization.

Your Global Partner for Safety, Skills, and
High-Performance Development.
