

Time	Session
08:00 – 8:45	Registration and Networking
08:45 – 10:15	<p><b>Opening Plenary Session:</b> <b>Building the Mexico Energy Market</b></p> <p><i>The Mexican energy industry is growing into a prime area for international investment. The revitalization of the oil and gas industry is underway with numerous global players taking significant stakes in offshore (shallow and deep) exploration areas. The country's natural gas and crude oil pipeline network continues to expand, and it is on the verge of launching the nation's very first natural gas storage tender later in 2018/early 2019 which aims to boost energy security. Under the new administration, what is the future of energy in Mexico, and how are the National Oil Company and Independent Oil Companies working to push forward the realization of an energy powerhouse in Mexico?</i></p> <p><b>Opening Remarks and Welcome:</b> <b>Guido van der Zwet</b>, Manager Americas, iPS Powerful People - Chair of the EIC Connect Mexico Advisory Committee <b>Amanda C. Duhon</b>, Regional Director (North &amp; Central America), EIC <b>Corin Robertson</b>, Her Majesty's Ambassador to Mexico</p> <p><b>Presentations and Panel:</b> Moderated by: <b>Chris Wall</b>, Business Specialist - Sectors Group, UK Department for International Trade <b>Amanda C.
